Introducing the Haymarket Hub – a hi-tech hotel from The Edinburgh Collection

From [The Edinburgh Collection](#) comes a brand new style of hotel for the capital. Convenient, contemporary and connected – say “hello” to the Haymarket Hub, Scotland’s first Handy smart phone hotel. Forget no-frills and basic, the Haymarket Hub is the hotel upgrade not just for millennials, but a broader range of leisure and corporate travellers. It’s business class not budget class – but with an affordable price tag.

Located directly opposite Edinburgh’s Haymarket station the hotel is in the heart of the action. On the direct line from London’s Kings Cross and the airport tram, you’re just minutes from the chic West End, the action at Murrayfield, the shops of Princes and George Street, the handsome New Town and historic Old Town, making it the perfect hub for any city break.

What really sets the Haymarket Hub apart from other hotels in the city (and country) are its complimentary smart phones for every guest. With free data and no-charge UK and international calls to 10 countries including Australia, China, India & USA visitors can stay in touch 24/7 inside and outside the hotel. The smart phones will be a hub of information for visitors enabling them to access the latest city news, events, discover the best restaurants and bars and explore the capital using Google maps.

The efficiently designed bedroom spaces boast clean lines and contemporary design with luxurious beds from Hypnos guaranteeing a great night’s sleep. If you fancy settling in there’s in-room entertainment to catch up with the day’s news, films or sport, but if a night out is on the cards then the power showers and indulgent toiletries will revive and recharge you for the night ahead. Round the clock there’s an Illy Café and a host of refreshments available and guests can enjoy a Full Scottish breakfast at the adjoining Platform 5, a Belhaven Pub, available daily from 7am till 12noon.

So, at your fingertips and by the touch of a button Edinburgh is your very cultured oyster!
